COVID-19 UPDATE

To Our Valued Customers:

We want to advise you that Acme Monaco Corporation will continue to remain open during the Connecticut "Stay Safe, Stay at Home" Executive Order placing restrictions on non-essential businesses.

Acme Monaco qualifies to remain open under the "essential businesses" category

- medical supplies and equipment providers, including devices, diagnostics, services, and any other healthcare related supplies or services

Acme Monaco Corporation is an essential supplier of products to the medical device industry, manufacturing devices for neurology, urology, cardiology, and peripheral vascular interventions.

We will remain open and operational during this Executive Order which shall be in effect through April 22, 2020 unless modified, extended, or terminated.

The health of our employees will continue to be our #1 priority and we will be closely monitoring our workforce to ensure social distancing, proper hygiene, and providing a highly sanitized work environment for our employees and products.

We will continue to instill in the employees the importance to stay home if they exhibit symptoms, or in any way do not feel well. We have instructed our employees to immediately notify our Human Resource department if they have any symptoms or have been in contact with anyone that may have had symptoms or have tested positive for Covid-19.

In the event your company experiences major shift in product needs, we ask that you contact our sales department as soon as possible. They can be reached at our general office number 860-224-1349. We will work with each customer to address their particular needs and expedite orders or delay shipments where possible.

We will update you in the event of any changes in our operating schedule.

Thank you again for your continued business.
